ENVIRONMENTAL POLICY

At Precision Plating S.A. de C.V., we are committed to protecting the environment through pollution prevention, efficient use of resources, and responsible waste management, ensuring compliance with legal requirements and other applicable commitments. To guarantee the continuous improvement of our environmental performance, we commit to:

- Comply with current environmental legislation as well as other commitments the organization may adopt.
- Establish and maintain environmental objectives and targets, promoting the integration of our operations to ensure legal compliance and improved environmental performance.
- Identify, assess, and manage the environmental aspects and impacts arising from our activities in order to minimize risks and identify opportunities for improvement.
- Optimize the use of natural resources by promoting energy efficiency, waste reduction, and the reuse and recycling of materials whenever possible.
- Properly manage hazardous and special handling waste, ensuring its segregation, storage, and final disposal in accordance with applicable regulations.
- Promote an environmental culture among our team members through continuous training and participation in sustainable initiatives.
- Ensure communication of our environmental policy to all relevant interested parties, guaranteeing its understanding and implementation within the organization.

This policy provides the framework for establishing and reviewing our environmental objectives and will be reviewed periodically to ensure its relevance and continuous improvement. Precision Plating S.A. de C.V. reaffirms its commitment to sustainability and environmental responsibility in all its operations.
